

Commercial Air Filtration Solutions

Clean Air.
Comfortable Spaces.
Proven Performance.

Whether you're managing a busy bar, an upscale restaurant, or a high-traffic office, we provide solutions that keep air clean and guests happy. For dealers, our reliable and easy-to-install filtration systems offer a proven way to expand product offerings, drive sales, and build long-term customer relationships with high-performing air quality solutions.

How AQE Units Help Businesses

Improve Air Quality & Guest Experience

Maintain a clean, inviting environment by removing smoke, dust, and odors.

Extend System Efficiency

Leverage electrostatic solutions or media filters that reduce buildup and maintain airflow.

Reliable & Easy-to-Implement Solutions

Count on expert guidance and durable systems that integrate seamlessly into your space.

At Pure N Natural Systems, we have found Air Quality Engineering to be an exceptional partner. Their high-quality products, combined with their responsive and knowledgeable team, have greatly contributed to our success. We truly value this partnership and look forward to continued collaboration.

- Pure N Natural Systems

Filtration Solutions That Drive Efficiency & Savings

Unpleasant odors, lingering smoke, and poor air quality can drive customers away and create an uncomfortable work environment. Maintaining clean indoor air is essential for keeping guests happy, employees productive, and ensuring compliance with local air quality regulations. Air Quality Engineering (AQE) provides reliable air filtration solutions that help businesses create a more inviting, cost-efficient, and compliant environment.

C-12

Compact, High-Performance Filtration

The C-12 is a powerful, compact air filtration system designed for bars, casinos, and hospitality spaces. Featuring multi-stage electrostatic filtration, it effectively removes smoke and airborne contaminants while operating quietly to maintain a comfortable customer environment.

CM-11

Versatile Air Cleaner for Commercial Spaces

The CM-11 is a versatile air cleaner ideal for restaurants, offices, and high-traffic areas. Its combination of media and carbon filtration efficiently removes odors and particulates, providing a low-maintenance solution that is compact and easy to install.
